SECTION L

L-01. PROPOSAL PREPARATION INSTRUCTIONS

A. To assure timely and equitable evaluation of proposals, offerors must follow the instructions contained herein. Offerors are required to meet all solicitation requirements, including terms and conditions, representations and certifications, and technical requirements. Failure to meet a requirement may result in an offer being ineligible for award. Offerors must clearly identify any exception to the solicitation terms and conditions and provide complete accompanying rationale. The response shall consist of two (2) separately bound parts, **Part I** - Price Proposal, and **Part II** - Past Performance Information.

B. The contracting officer has determined there is a high probability of adequate price competition in this acquisition. Upon examination of the initial offers, the contracting officer will review this determination and if, in the contracting officer's opinion, adequate price competition exists no additional cost information will be requested and certification under FAR 15.406-2 will not be required. However, if at any time during this competition the contracting officer determines that adequate price competition no longer exists; offerors may be required to submit information to the extent necessary for the contracting officer to determine the reasonableness and affordability of the price.

C. Specific Instructions:

Completed Customer Satisfaction Surveys sent directly to the Government from any offeror will not be considered in the evaluations. **Past Performance Survey is available at Attachment 16.**

It is the responsibility of contractors to ensure that their customers complete Customer Satisfaction Surveys for all projects that are to be considered in the evaluation of a contractor's present/past performance and to ensure that its customers send such completed surveys directly to the Contracting Office not later than the date and time established for receipt of proposals.
